Facts About The Bible

The Bible is composed of 66 books. There are 39 books in the Old Testament and 27 in the New Testament. Some 39 or 40 men had a part in the writing of the Bible, from Moses to the apostle John. It took over 1500 years to produce the Bible.

Out of all the men who wrote the books of the Bible, Luke "the beloved physician" (Col. 4:14) was the only Gentile. He penned the gospel of Luke and the book of Acts.

The first section of the Old Testament is called the Pentateuch. It contains the first five books of the Bible (Genesis, Exodus, Leviticus, Numbers and Deuteronomy). These books, written by Moses, cover the period of time from Creation to the death of Moses, just prior to the entrance of God's people into the promised land.

The Old Testament contains twelve books of history, from Joshua through Esther. There are five books of poetry: Job, Psalms, Proverbs, Ecclesiastes, and the Song of Solomon. There are five books of the major prophets: Isaiah, Jeremiah, Lamentations, Ezekiel and Daniel. There are 12 minor prophets, from Hosea through Malachi.

The New Testament contains [four gospels](#) (Matthew, Mark, Luke and John), each telling the story of the life of Christ from different viewpoints. The New Testament has one book of history, the book of Acts, which tells of the establishment of the church and the growth of Christianity in the first century. It also has 21 epistles, the majority of which were written by the apostle Paul (Romans through Jude) and one book of prophecy (the Revelation), penned by John while on the isle of [Patmos](#).

The Old Testament was written in Hebrew (with the exception of Daniel 2:4b-7:28 and Ezra 4:8-6:18). The New Testament was written in Greek.
